

Nighttime Visibility

Color matters -- go **retro-reflective** or **white** to be seen!

500'

180' **White**

120' **Yellow**

80' **Red**

55' **Blue**

(Distances driver will first see you by clothing color)

Retro-Reflective Clothing Samples

Adapted from an FHWA distributed poster to promote use of retro-reflective materials to increase the visibility of pedestrians at night.
