

Municipality of Anchorage
Project Management & Engineering Department

Edward Street: 6th Avenue to DeBarr Road

At the request of the Northeast Community Council and the Anchorage School District over concerns for pedestrian safety, particularly school aged children, the Municipality of Anchorage is proposing changes to Edward Street from 6th Avenue to DeBarr Road. Alternatives developed in the draft Design Study Report enhance drainage, road surface and sub-surface, lighting, landscaping, bicycle and pedestrian facilities.

Your questions and comments will continue to help the design team improve the project. To learn more about the project alternatives and to provide feedback to the project team, please contact:
